

— *The Story* —

As a romance author, A. Stein understood the importance of timely, high-quality editing.

Like many self-published authors, Stein had to find her own editing services. "When you're self-publishing, trying to get your work...out there is important," explained Stein. "Some editors are booked for months in advance—you don't want to wait that long."

— *The Goal* —

Her aim was to find a romance novel editor who would stay within time constraints.

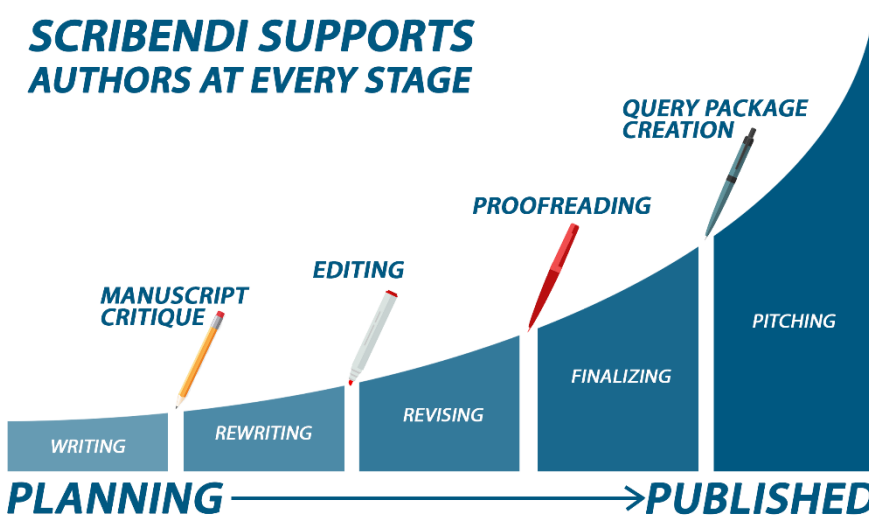

It was important to Stein that her editor work quickly, but it was also important that the editor be experienced in editing romance novels. With Scribendi's large team of editors, Stein was matched with an ideal editor right away.

— *The Solution* —

Stein trusted Scribendi to edit her novel in a way that was quick and professional.

Stein felt that Scribendi's editors helped her improve her manuscript. "I was paired with an editor who appreciated the genre. I also felt that the price was reasonable," said Stein. "[The] services were great—and very beneficial."

**SCRIBENDI SUPPORTS
AUTHORS AT EVERY STAGE**

Manuscript editing always makes my book stronger—the editor points out inconsistencies, gaps, questions they had as a reader, and even when something didn't feel right—like a character's reaction.
